# SPLINE GAGES

**EVER SHARP TOOLS**  
*The Power of 6 Metal Cutting Tools*

## A Fundamental Part of the Total Spline Solution

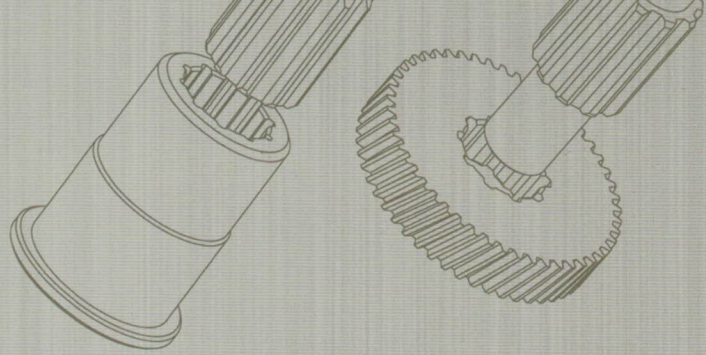

Go composite side fit plug/ring gages  
No Go Sector plug/ring gages

Max. diameter: 500mm  
Min. diameter: 5mm  
Max. number of teeth: 500  
Max. pitch: 25.4 module  
Min. pitch: 0.1 module  
Max. tooth length: 300  
Typical Tolerances  
Profile: 0.005mm  
Total Spacing: 0.005mm  
Runout: 0.005mm  
Tooth Alignment: 0.0025mm  
Tooth Thickness: 0.005mm

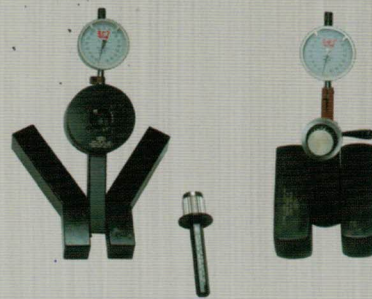

Max. diameter: 355mm  
Min. diameter: 5mm  
Max. number of teeth: 500  
Max. pitch: 25.4 module  
Min. pitch: 0.1 module  
Max. tooth length: 150  
Typical Tolerances  
Profile: 0.005mm  
Total Spacing: 0.005mm  
Runout: 0.005mm  
Tooth Alignment: 0.0025mm  
Tooth Thickness: 0.005mm

EST designs & manufactures Spline Gages for all your spline inspection and measurement requirements.

**Handheld double balls variable plug gage with setting master ring.**

Min. diameter : 5mm .

**Table stand double balls variable gage with setting master plug/ring gage**

Min. diameter: 5mm.

**Handheld circular tooth thickness/space width gage with setting master**

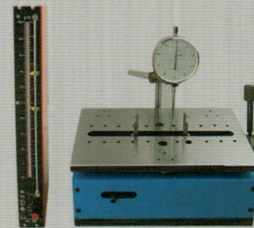

Min. diameter : 5mm .

**Table stand double balls variable gage with digital indicator**

Spline shaft with tapered teeth
